UNIVERSITY COLLEGE OF ENGINEERING (AUTONOMOUS), OSMANIA UNIVERSITY

The University College of Engineering (UCE) has the distinction of being the oldest and the biggest among the Engineering Colleges of the State of Telangana, Established in the year 1929, eleven years after the formation of Osmania University, it is the 6th Engineering College to be established in the whole of British India. The College moved to its present permanent building in the year 1947. Today it is the biggest among the campus colleges of Osmania University. The Golden Jubilee of the College was celebrated in 1979, the Diamond Jubilee in 1989 and the Platinum Jubilee in 2004. The College was made autonomous in 1994. The College offers Bachelor of Engineering, Master of Engineering/Technology and Ph.D. in various branches of Engineering.

ABOUT MECHANICAL ENGINEERING DEPARTMENT, OSMANIA UNIVERSITY

The Department of Mechanical Engineering was established in the year 1939 at University College of Engineering, Osmania University. It has since then grown significantly by spreading its academic activities in offering various programmes at Undergraduate, Post Graduate and Doctoral level. Currently each year the Department admits 60 students for the Undergraduate programme and 66 for the Post Graduate courses (Production Engineering, Turbomachinery and Automation & Robotics) in regular stream and 45 in part time Production Engineering, Automation & Robotics and Turbo machinery streams. The Department also admits 96 students for post graduate courses (CAD/CAM, Tool Design and DFM) offered in collaboration with CITD. The Department receives research and modernization grants from UGC, MHRD, AICTE and TEQIP. So far the department has awarded 101 Ph.D.s. Currently 150 doctoral students are on rolls. The department has well equipped laboratories to facilitate opportunities for experimentation in the areas of Rapid Prototyping, CAD/CAM, Machine Tools & Metrology, Production Engineering, Materials Testing, Metallurgy & Material Science, Thermal Engineering and Heat Transfer. Recently the Department of Mechanical Engineering had celebrated its Platinum Jubilee in 2014.

ABOUT PRODUCTION ENGINEERING

The post graduation course Production Engineering started in the year of 1966 with an intake of 13. So far about 1300

Production Engineering students have graduated during these 50 years including PTPG. Till date 106 candidates are awarded Ph.D degree in Mechanical Engineering, out of which nearly 70% candidates are from Production Engineering specialization. The Production Engineering Laboratory has the state of the art machinery to cater the needs of UG, PG and Ph.D. students.

SCOPE OF THE SEMINAR

Production Engineering is a combination of manufacturing technology, engineering sciences with management science. Production engineering encompasses the applications of casting, forming, machining, joining, tool design, die and mould design, metrology, machine tools and jigs & fixtures etc.
